Just published and already stirring up a storm of controversy!

The never-before-told story of the CIA's mercenaries—so close to fact that it had to be published as fiction

COMPANY MAN

By JOE MAGGIO

Based on the true experiences of its author, this savage novel blows the lid off the undercover operations of the CIA: its secret training bases, its "company" of professional mercenaries, and the top-secret missions they're trained for—from the Bay of Pigs, to Laos, to the Congo.

"Sensational. . . . Written by a former CIA man . . . [it] rings with authenticity."
—Publishers Weekly

"The CIA training and operations are even more weird and unchecked than Americans have had reason to believe before."
—Miami Herald

"When you fall out of favor in the company, they don't fire you; they fire at you. . . . Enough cutting and thrusting, bombing and blasting to satisfy any devotee."
—Boston Globe
